Clinic highlights

Joella's Story

"Soon after Joella and her little girl moved to Texas, she quickly discovered she was pregnant. Alone and desperate, she chose abortion. She came to MCWC and had an ultrasound where she saw her baby and heard the heartbeat. It was a life-changing appointment. Before she left, Joella said, 'I'm going to keep my baby and work hard and do my best to take care of both my children.' Thank you to our wonderful donors who invested in life and protecting Joella's baby girl, Oceane."

MCWC Staff

"MCWC staff members put themselves on the frontlines during the pandemic in order to serve those most at risk and vulnerable."
